

A Biblical Understanding of the End-Times

According to the Bible, the nations are racing toward their appointed time of God's judgment. Come and hear a man who has spent most of his life focusing upon the ancient prophecies concerning the end of this age.

Mike Wingfield, from Roanoke, Virginia, has traveled extensively throughout the United States and several other countries to share his passionate message concerning the Second Coming of Christ. His PowerPoint presentations capture the attention of all ages. He has made 24 trips to the Middle East and has a keen insight into the social, religious, and political trends in this region. Consequently, after five decades of studying the prophetic Scriptures, he believes that the current explosive events in the Middle East and their global reaction to them, are rapidly changing our world. It is apparent that the biblically predicted end is quickly approaching!

October 19-22
